

MESSAGE FROM THE PRESIDENT

For this issue I've made my message very brief. Below you will find that PSC Crane & Rigging received a very prestigious award from Honda of America Manufacturing. I could not be more pleased of the success our team has had with their commitments to our clients. This award is a true testament of their embracing a 100/0 Safety Culture, our values of Trust, Honesty, Dignity & Respect as well as our beliefs.

So I just want to say Thank You to our entire team and the future opportunities we have before us.

Sincerely,

James R. Sever
President & CEO

From left to right, **Tony Walker** - Staff Administrator, Stamping Expansion Project Leader, Honda of America Manufacturing, Inc.; **Mathew Daniel** - Honda of America Manufacturing, Inc. - North American Indirect Procurement Department - Senior Staff Administrator | CAPEX Procurement Category Manager; **Randy Sever** - Executive Vice President, PSC Crane & Rigging; **Jim Sever** - President, PSC Crane & Rigging; **Chris Walker** - Honda of America Manufacturing, Inc. - North American Indirect Procurement Department - Staff Administrator | North American CAPEX Procurement Division; **Monica Oliverio** - Department Manager | North American Indirect Procurement | Honda of America Manufacturing, Inc.

PSC CRANE & RIGGING RECEIVES PRESTIGIOUS HONOR FROM HONDA

As Honda approaches its 40th year of production in the U.S. this September, the company also celebrated its 60th year of production in America this past June. Committed to building "... products close to the customer," to date, Honda now operates 12 major manufacturing facilities nationwide and works with over 600 suppliers across the U.S.

Honda recently honored the top one percent of their suppliers, honoring just 22 out of 2,200 suppliers for an assortment of quality and performance achievements. PSC Crane & Rigging (PSC) and Honda are proud to announce that PSC is among the esteemed group. On June 12th, PSC received the "2019 Indirect Procurement Supplier Award" at the annual Honda Indirect Procurement Supplier Conference—held at the Bridgewater Banquet and Conference Center in Powell, Ohio.

The honor ranks PSC among not only the best Honda indirect suppliers, but among the best indirect suppliers in the world.

In a statement released by Honda of America Manufacturing, Inc. department manager of the North American Indirect Procurement Department, Monica Oliverio emphasized: "Our suppliers and business partners make us a stronger company, helping us realize innovation and advancement by delivering the benefits the marketplace has to offer. This complimentary and valued relationship is an important part of our mutual success."

SAFETY UPDATE

For 24 years, The Builders Exchange of Central Ohio has recognized members for proactive safety efforts and exceptional results with the annual BX Safety Achievement Award. This award is based on your company's current jobsite performance and your accident statistics from the previous year (2018), including OSHA incidence rates and your workers' compensation experience modification rate (EMR). Finalists for this Achievement Award also receive an unannounced site visit from a team of BX judges, to verify your company's safety practices in the field.

Due to PSC Crane & Rigging's commitment to our 100/0 safety culture implemented in 2017, our team members daily efforts in the field to working "Safe Today", and a significant improvement in our 2018 safety statistics, PSC was selected to receive the 2018 - 2019 BX Safety Achievement Award!

Not only did our company's statistical safety data prove to be comparable to the National figures from the Bureau of Labor Statistics (BLS), but PSC also demonstrated safety within the field during an unannounced safety audit performed by a panel of volunteer safety judges.

PSC will be accepting this award on behalf of all our Team Members at the Builders Exchange Annual Meeting that will take place on the evening of Thursday, November 21, 2019, and feel this award is a direct reflection of our belief that "Safety is vital to everyone's success, significance & Legacy."

MIKE JURASIC: 35 YEAR TEAM MEMBER

Our longest tenured Team Member (Mike Jurosic) recently celebrated his 35th year anniversary being with PSC Crane & Rigging. Mike began his career with PSC in 1984. He was first hired as our dispatcher. At that time we had a total of 12 field members and 4 office staff. Throughout the years he has served as our purchasing manager and facilities manager.

Not only has he witnessed the migration from our original company name of Piqua Steel Company to PSC Crane & Rigging, he has also seen the transformation to a very sophisticated, technologically advanced systems and processes oriented company. While at times we know some of the changes we have made may not have been as positively received as we would like, Mike has proven himself as a steady and consistent team member through all of the down turns and growth modes the company has faced the past 3-1/2 decades.

Mike has worked along side 3 generations of Sever Executive Management, all with different personalities and leadership styles. Through that, Mike has been a team member that has truly always lived our values of Trust, Honesty, Dignity & Respect with the overall good of the company top of mind.

Congratulations Mike! We greatly appreciate your 35 years of service to PSC.
